TECHNOLOGY TRANSFORMATION & CONSULTING PROFESSIONAL

Technology Account Management | Digital & Cloud Transformation | Program & Financial Management | AI/AIOps | MBA - IIM Lucknow
rupeshkarn7@gmail.com | +91 88827 23118 | linkedin.com/in/rupesh-kumar-56500b13b

PROFESSIONAL SUMMARY

Technology Transformation & Consulting professional with 6+ years of experience across enterprise infrastructure transformation, technology operations, client-facing delivery and program management. Currently a Technical Account Manager - Technology Operations at Accenture, aligning business priorities with technology execution across Data & Voice, Cloud and enterprise technology environments. Experienced in stakeholder governance, escalation leadership, technology financial management, cost optimization and cross-functional delivery. MBA from IIM Lucknow with business grounding in finance, strategy and negotiation, complemented by strategic research in enterprise AIOps and AI-enabled operating models.

CORE CONSULTING CAPABILITIES

Consulting & Strategy	Technology Consulting; Technology Advisory; Business-Technology Alignment; Technology Strategy; Business Case Development
Technology Transformation	Digital Transformation; IT Transformation; Service Transformation; Process Improvement; Technology Governance; Value Realization
Program & Stakeholders	Program Management; Portfolio Coordination; Client Advisory; Executive Communication; Risk and Change Management
Financial & Commercial	Technology Financial Management; Cost Governance; Cost Optimization; Financial Analysis; Vendor and Resource Coordination
Cloud, AI & Operations	Azure; AWS; Cloud Transformation; Technology Operations; Data & Voice; Generative AI; AIOps Strategy
Infrastructure & Networking	LAN/WAN/WLAN; SD-WAN; MPLS; Data Center; Routing and Switching; Network Security; Cisco; Fortinet; Meraki

PROFESSIONAL EXPERIENCE

ACCENTURE | Technical Account Manager - Technology Operations

03 Jul 2026 - Present

- Translate business and operational requirements into coordinated technology priorities across infrastructure, Data & Voice, Cloud, asset and support functions, aligning execution with account needs and service outcomes.
- Govern technology readiness and mobilization dependencies through cross-functional alignment, risk visibility, RAG-status tracking and financial-plan updates for technology transitions.
- Lead stakeholder communication and escalation management for business-critical access, application and end-user technology issues, coordinating multiple support towers to restore service and reduce productivity impact.
- Evaluated Data & voice utilization and developed a rightsizing recommendation, identifying \$20k monthly and \$240k annual savings while aligning consumption with demand.
- Coordinate secure remote-access readiness, VPN user acceptance testing and compliance controls, enabling validated application connectivity and operational adoption for remote-working teams.
- Drive technology lifecycle governance across asset provisioning, reassignment, replacement, recovery and rationalization, working with delivery, infrastructure, procurement and asset-management stakeholders.
- Support transformation and control initiatives spanning Autopilot adoption, phishing-resistant authentication assessment, device compliance remediation and technology process improvement.

BT E-SERV (INDIA) PVT. LTD. | Technical Project Manager - Infrastructure

Sep 2022 - Jun 2026

- Led a \$1M+ enterprise network modernization program across 200+ sites for a global logistics client, translating reliability, operational-risk and lifecycle challenges into a structured transformation roadmap.
- Developed business cases, project charters, scope definitions and implementation strategies, aligning customer requirements with financial feasibility, delivery risk and long-term operational value.
- Governed security vulnerability remediation across 20,000+ LAN/WAN/WLAN/SD-WAN devices while balancing remediation priorities with service continuity and delivery commitments.
- Orchestrated data-center migration and infrastructure upgrades involving Cisco switches and routers and Fortinet firewalls through structured planning, lab testing, rollback strategy and UAT.
- Streamlined delivery processes to reduce the EOL transformation timeline by 30% and cost by 25%, strengthening execution efficiency and value realization.
- Presented executive dashboards covering budget utilization, risk exposure, resource alignment and program progress; coordinated global vendors, engineering teams and client stakeholders.
- Earned client recognition for end-to-end delivery and received BT Star Employee of the Year 2024 and BT Star Performer Award 2025.

HCL TECHNOLOGIES | Technical Project Assistant - Infrastructure

Jan 2021 - Sep 2022

- Managed delivery of a \$1.5M wireless refresh across Nordic regions, migrating 5,000+ access points to Cisco 9100 series to strengthen network capability and end-user experience.
- Supported a \$300K Network Time Protocol migration across Windows, Linux, Solaris, load balancers and network devices, reinforcing timing reliability, certificate integrity and security continuity.
- Governed RAID logs, meeting decisions and delivery reporting, aligning technical teams, vendors and client stakeholders through critical infrastructure migrations.
- Enabled onboarding of 300+ business users through device provisioning, business-software readiness and knowledge transfer with no reported operational disruption.
- Received HCL Employee of the Year 2022.

EDUCATION

INDIAN INSTITUTE OF MANAGEMENT (IIM) LUCKNOW | MBA - General Management

2024 - 2026

- Business focus: Corporate Finance, Financial Analysis, Product Strategy, Business Strategy, Negotiation, Strategic Decision-Making and Business Transformation.

IESEG SCHOOL OF MANAGEMENT, FRANCE | International Immersion

2025

- AI & Entrepreneurship; Advanced Negotiation.

MAHARAJA AGRASEN INSTITUTE OF TECHNOLOGY | B.Tech - Electrical & Electronics Engineering

2016 - 2020

CERTIFICATIONS

APM Project Management | SAFe 5.1 Agilist | Certified Agile Scrum Master | Scrum Fundamentals Certified | Microsoft Certified: Azure Fundamentals | Generative AI: Overview for Project Managers - PMI | Six Sigma Yellow Belt

SELECTED STRATEGIC / AI PROJECT

MBA Dissertation - Design and Implementation Framework for Enterprise-Grade AIOps in Telecom Networks: A Prescriptive Model for Predictive, Autonomous IT & Network Operations

- Designed an academic, enterprise-grade seven-layer reference architecture spanning data ingestion, observability, AI engine, automation, ITSM integration, security and compliance, and executive intelligence.
- Positioned predictive and autonomous IT/network operations through a strategic operating-model framework; no commercial deployment is claimed.
